

We would like to introduce you to our Company. **TECNOGRAFICA Y MAQUINARIA S.A.** is a Company of graphics arts, specialized in the manufacturing of folding carton and corrugated packaging, for all kind of industries.

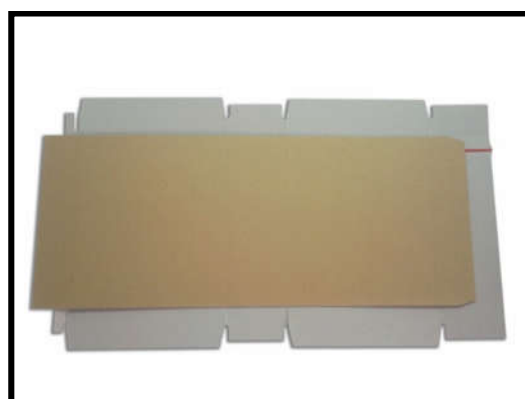

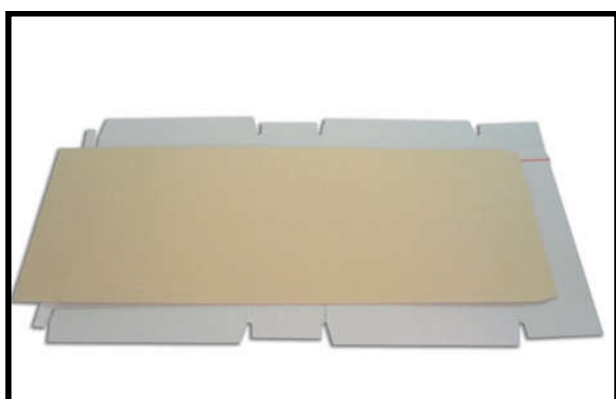

It was founded in 1987, located in CASTELLBELL I EL VILAR, Bages County in Barcelona. It has a total surface of 23.000m<sup>2</sup>. 3.200 m<sup>2</sup> are intended for manufacturing and 3.000 m<sup>2</sup> for storage of finished product.

The company is also specialized in the manufacturing of boxes for the automatic packaging of mass consumption, specifically for the detergent, food and publicity industries.

Now, presentation of the product in the point of sale is becoming more important. A nice and suitable packaging may increase the product sales. For this reason, we would like to present the following box we think could be of your interest.

This type of box is called carry carton or box with two pieces. Its manufacturing consists of assembling two pieces: the first piece in folding carton and the second one in corrugated.

The first piece in folding carton can be manufactured in different types of board as barrier board, grey back board GD2, wood back board, white back board, etc. and could be printed in 6 colors plus varnish.

The second piece in corrugated, can be manufactured in type E or B, in brown or white colour.

Relevant characteristics of this box:

1. Greater resistance to compression
  - a. Prevents that the boxes at the points of sale are deformed or crushed.
  - b. Prevents the bulge of the box.
  - c. Can be stored one above the other occupying less space at the point of sale.
2. With the cardboard barrier we get more resistance to perforation of the board and outdoor humidity
  - a. Better appearance
  - b. Humidity resistance

Dimension of the box can be adapted to clients requirements.
