

TECNOGRAFICA Y MAQUINARIA, S.A. is a company of graphic arts, specialized in the manufacture of folding carton and corrugated packaging for all kind of industries.

It was founded in 1987 and it is located in CASTELLBELL I EL VILAR, Bages County, at 50 km. from Barcelona and 15 km from the emblematic Montserrat Monastery. The facilities occupy a total surface area of 23.000 m²: 3.200 m² are intended for manufacturing and 3.000 m² for storage of finished product. It is connected with the main communication & transport networks of the country, allowing us a commercial action in Spain, France, Germany, Italy, Portugal and others.

25 years of experience endorse us in the manufacture of this kind of packaging and carton products, in order to satisfy the needs and requirements of our clients, being a family Spanish company that produces sustainable solutions in the packaging area.

Our commitment is to satisfy all levels of quality and service demanded by our customers. By this reason, from June 1998 we are certified by UNE-EN ISO 9001, the quality management system awarded by BUREAU VERITAS QUALITY INTERNATIONAL, which forces us to analyze the raw material used in the production process in our Laboratory of Quality Control, as well as all manufacture process.

During these years, **TECNOGRAFICA** has been improving the productive process, carrying out investments as artificial vision, facilities and machinery park renewal. One investment to highlight is the control by artificial vision, which enables inspection of 100% of the production.

We have a laboratory duly prepared with all the required measurement technology to meet our quality objectives, verifying all requirements of our customers; we can verify all the technic specifications of the raw material used in the production process, and the finished product.

Our Quality department is prepared to answer any question of our customers.

Our productive process consists of printing, die cutting, gluing and riveting plastic handles.

Our printing technology is offset. We use certified low migration inks for food industry, cutting tools with laser technology, braille, reliefs, etc. Boxes gluing two pieces packaging (carry carton), placing plastic handles with rivets and Wilton handles.

Our machinery are equipped with artificial vision systems, able to make 5000 picture per minute, being able to check the 100% of our production.

Tecnográfica is specialized in the manufacture of printing folding carton and corrugated packaging.

The main sectors of activity are: detergent, food, beverage, animal food and toys.

Special treatments: moisture and grease protection, PE barrier, stamping, relief, braille, PET and PVC windows, riveting handle plastic.

Exclusive packaging as:

Click clack self-closing in two pieces boxes

Pump dispenser in automatic packaging, straight line, lock bottom and two piece boxes.

Riveted handles.

Our engineers from I+D are expert in market trends, new materials and packaging innovation to satisfy the needs of our customers.

This effort has allowed us to obtain a global patent and its industrial design. It consists in a dispenser with an easy opening and closing.

Tecnográfica y Maquinaria S.A. is member of different associations, highlighting SEDEX GLOBAL. <http://www.sedexglobal.com/>
